

6 RED CELLS  
4 PLATELETS  
Severe Aplastic  
Anemia

## Transform a life, and your own

Blood donors help people like Jackson, a middle school student who has required six blood transfusions since he was diagnosed with Severe Aplastic Anemia last summer. At the time of his diagnosis, only 10% of his bone marrow was producing the stem cells needed for his body to make red cells, white cells and platelets.

*"Our family is so grateful to blood donors... my son is living proof that they save lives."  
- Jackson's Mom, Julia*

# SEPTEMBER Mitzvah Project

MuslimsforLife.org and  
The Church of Jesus Christ of Latter-day Saints  
and East Valley Jewish Community Center  
9th Annual 9/11 Blood Drive

Wednesday, September 11
