

Fun with Ms. Mariah

Hello friends,

I have been missing you all so much! It has been really hard not seeing all of your smiling faces everyday. I wanted to share some fun games that I have done with my sisters over the years. I hope you enjoy them!

Ball Rescue

Materials

- Cupcake Tin
- 12 balls (or other items that will fit inside the cupcake spaces)
- Painters Tape (regular tape will work as well but painters tape is easier to peel off)

Objective

- Encourage problem solving skills
- Object Permanence

Instructions

- Place one item in each cupcake space
- Cover each space with tape leaving a little bit of the item in view underneath
- Allow your child to peel back the tape
- If you show your child the object first and then tape over it, this helps strengthen their object permanence skills

Smush Painting

Materials

- Zip-top bag
- Paper that will fit inside the bag
- Paint

Objective

- Sensory
- Color mixing
- Creativity
- Fun!

Instructions

- Place separate dollops of paint on the paper
- Place paper in the bag
- Zip the bag closed
- Let your child squish and smush the paint onto the paper

Have fun with these activities!

Ms. Mariah
